

5 STAR STUDENTS

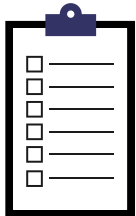

5-Star Students is a program we use to manage and encourage student engagement.

Studies show that when students are involved, they are more likely to perform better academically, have fewer disciplinary issues, and attend more school days.

5-Star Students can help us manage rosters, record event attendance, reward positive behaviors, check in for tutoring, conduct surveys and voting polls, and even keep our hallways safe with digital hall passes!

We can assign point values to events, positive behaviors, and check-ins to award students for participating. In return, students can spend their points on different rewards and incentives.

Staff will be scanning student ID cards (school issued or digital ID) to record participation and award points. Students can view their account on our school webpage or by downloading the 5-Star Students App.
